## Calendar for Winelovers

South African Wineries – Wine architecture between tradition and modernity

The calendar "South African Wineries" reflects the breathtaking beauty of the Cape Winelands of South Africa and the variety of unique wineries. In an impressive way, the motifs carefully selected by wine photographer Chris Rebok show South African wine architecture between tradition and modernity.

Immigrants from various nations have been shaping South African viticulture for more than 360 years. The resulting diversity is reflected not only in the wines, but also in the different construction methods. South African wine architecture offers an impressive range from traditional Cape Dutch architecture to modern concrete structures.

This wine calendar is not only an ideal gift for wine lovers, wine enthusiasts or true wine connoisseurs, but also for those who enjoy beautiful wine landscapes, gorgeous wineries and impressive wine architecture.

With the bonus material available on the internet, shoppers get online access to a wealth of information about the wineries displayed.

The calendar "South African Wineries" encourages both reminiscing and dreaming of an upcoming journey.

**Bonus Material Online!**

The buyers of the calendar can not only enjoy the beautiful pictures, but get online access to a variety of information on the pictured wineries. Starting with the contact details with GPS information, the description of the winery to an overview of the top wines, there is everything that interests the ambitious wine lovers, or the curious wine travellers. The bonus material is available in both German and English.
